ABDULHAKIM OBSINA

SOFTWARE DEVELOPER

ABOUT ME

As a Software developer, I am a dedicated and enthusiastic professional with a passion for Software development and a strong desire to learn and grow in the field. With a solid foundation in Software development technologies, I possess a strong understanding of Web, Mobile and Desktop applications.

I have experience in developing responsive and user-friendly applications,as well as working with databases and backend technologies.

I am familiar in version control systems like Git and have a good understanding of RESTful APIs.

In addition to my technical skills, I am a proactive problem solver with excellent analytical and troubleshooting abilities. I have a keen eye for detail and take pride in producing clean, efficient, and maintainable code.

I am also a strong collaborator and work well in team environments, contributing ideas and actively participating in discussions.
